## Use the touch screen

Your device's touch screen lets you easily select items or perform functions. Learn basic actions to use the touch screen.

- To avoid scratching the touch screen, do not use sharp tools.
- Do not allow the touch screen to come into contact with other electrical devices. Electrostatic discharges can cause the touch screen to malfunction.
- Do not allow the touch screen to come into contact with water. The touch screen may malfunction in humid conditions or when exposed to water.

- For optimal use of the touch screen, remove the screen protection film before using your device.
- Your touch screen has a layer that detects small electrical charges emitted by the human body. For best performance, tap the touch screen with your fingertip. The touch screen will not react to touches of sharp tools, such as a stylus or pen.

Control your touch screen with the following actions:

- Tap: Touch once with your finger to select or launch a menu, option, or application.
- Tap and hold: Tap an item and hold it for more than 2 seconds to open a pop-up option list.
- Drag: Tap and drag your finger up, down, left, or right to move to items on lists.
- Drag and drop: Tap and hold your finger on an item, and then drag your finger to move the item.
- Double-tap: Tap twice quickly with your finger to zoom in or out while viewing photos or web pages.

- Your device turns off the touch screen when you do not use the device for a specified period.
- You can adjust the backlight time. In Idle mode, open the application list and select **Settings** → **Display** → **Screen timeout**.

## Lock or unlock the touch screen and keys

You can lock the touch screen and keys to prevent any unwanted device operations.

To lock, press [Ⓛ]. To unlock, turn on the screen and drag  right until it reaches the dot.

## Get to know the idle screen

When the device is in Idle mode, you will see the idle screen. From the idle screen, you can view your device's status and access applications.

The idle screen has multiple panels. Scroll left or right to a panel of the idle screen. You can also select a dot on the top of the screen to move to the corresponding panel directly.

## › Add items to the idle screen

You can customize the idle screen by adding shortcuts to applications or items in applications, widgets, or folders. To add items to the idle screen,

1 Press [≡] → **Add** or tap and hold the empty area on the idle screen.

2 Select the item category → an item:

- **Widgets:** Add widgets. Widgets are small applications that provide convenient functions and information on your idle screen.
- **Shortcuts:** Add shortcuts to items, such as applications, bookmarks, and contacts.
- **Folders:** Create a new folder or add folders for your contacts.
- **Wallpapers:** Set a background image.

Available items may vary depending on the current idle screen mode.

## › Move items on the idle screen

1 Tap and hold an item to move until the item appears gray.

2 Drag the item to the location you want.

## › Remove items from the idle screen

1 Tap and hold an item to remove.  
The trash bin appears at the bottom of the idle screen.

2 Drag the item to the trash bin.

3 When the item turns red, release it.

## › Use the shortcuts panel

In Idle mode or while using an application, tap the indicator icons area and drag your finger down to open the shortcuts panel. You can activate or deactivate wireless connection features and access a list of notifications, such as messages, calls, events or processing status. To hide the list, drag the bottom of the list up.

From the shortcuts panel, you can use the following options:

- **Wi-Fi**: Activate or deactivate the WLAN connection feature. ► p. 72
- **Bluetooth**: Activate or deactivate the Bluetooth wireless connection feature. ► p. 70
- **Silent**: Activate or deactivate Silent mode.
- **Auto rotation**: Activate or deactivate the auto rotation.

Available options may vary depending on your region or service provider.

## › Add or remove panels to the idle screen

You can add or remove panels of the idle screen to organize contents according to your preferences and needs.

- 1 In Idle mode, press [≡] → **Edit**.
- 2 Select  to remove a panel or  to add new panels.
- 3 Press [≡] → **Save**.

## Access applications

To access your device's applications,

- 1 In Idle mode, select **Application** to access the application list.
- 2 Scroll left or right to another application screen. You can also select a dot on the top of the screen to move to the corresponding menu screen directly.

3 Select an application.

- In order to use applications provided by Google, you must have a Google account. If you do not have a Google account, you must sign up for a Google account.
- You can add a shortcut to an application by tapping and holding the application icon from the application list. You can move the icon to the location you want on the idle screen.

4 Press [↩] to return to the previous screen; Press the Home key to return to the idle screen.

Your device has a built-in motion sensor that detects its orientation. If you rotate the device while using some features, the interface will automatically switch to landscape view. To set the interface to keep the orientation when you rotate the device, select **Settings** → **Display** → **Auto-rotate screen**.

## › Organize applications

You can reorganize the applications in the application list by changing their order or grouping them into categories to suit your preferences and needs.

- 1 In the application list, press [≡] → **Edit**.
- 2 Tap and hold an application.
- 3 Drag the application icon to the location you want. You can move an application icon to another main menu screen. You can also move most-used applications next to **Home**.
- 4 Press [≡] → **Save**.

## › Access recent applications

- 1 Press and hold the Home key to open a list of applications you have accessed recently.
- 2 Select an application to access.

## › Use the task manager

Your device is a multitasking device. It can run more than one application at the same time. However, multitasking may cause hang-ups, freezing, memory problems, or additional power consumption. To avoid these problems, end unnecessary programs using the task manager.

- 1 In Idle mode, open the application list and select **Task Manager** → **Active applications** .  
The list of all the applications currently running on your device appears.
- 2 To close an application, select **End**.  
To close all active applications, select **End all**.

## Customize your device

Get more from your device by customizing it to match your preferences.

## › Set the current time and date

- 1 In Idle mode, open the application list and select **Settings** → **Date & time**.
- 2 Set the time and date and change other options.

## › Turn on or off the touch tone

In Idle mode, open the application list and select **Settings** → **Sound** → **Audible selection**.

## › Adjust the volume of the ringtones

Press the Volume key up or down to adjust the ringtone volume.

## › Switch to Silent mode

To mute or unmute your device, do one of the followings:

- In Idle mode, tap **Phone** → **Keypad** and tap and hold #.

- Open the shortcuts panel from the top of the screen and select **Silent**.
- Press and hold [⓪] and select **Silent mode**.

## › Change your ringtone

- 1 In Idle mode, open the application list and select **Settings** → **Sound** → **Phone ringtone**.
- 2 Select a ringtone from the list and select **OK**.

## › Activate animation for switching windows

In Idle mode, open the application list and select **Settings** → **Display** → **Animation** → **Some animations** or **All animations**.

## › Select a wallpaper for the idle screen

- 1 In Idle mode, press [≡] → **Wallpaper** → an option.
- 2 Select an image.

- 3 Select **Save** or **Set wallpaper**.

Samsung is not responsible for any use of default images or wallpapers provided on your device.

## › Adjust the brightness of the display

- 1 In Idle mode, open the application list and select **Settings** → **Display** → **Brightness**.
- 2 Drag the slider to adjust the level of brightness.
- 3 Select **OK**.

The brightness level of the display will affect how quickly the device consumes battery power.

## › Set a screen lock

You can lock the touch screen with an unlock pattern or password to prevent unauthorized people from using the device without your permission.

- Once you set a screen lock, your device will require an unlock code each time you turn it on or unlock the touch screen.
- If you forget your PIN or password, bring your device to a Samsung Service Centre to reset it. Before bringing your device to a Samsung Service Centre, remember to make backup copies of all important data stored on your device.
- Samsung is not responsible for any loss of security codes or private information or other damages caused by illegal software.

## Set an unlock pattern

- 1 In Idle mode, open the application list and select **Settings** → **Location & security** → **Set up screen lock** → **Pattern**.
- 2 See the on-screen instructions and example patterns and select **Next** (if necessary).

- 3 Draw a pattern by dragging your finger to connect at least 4 dots.
- 4 Select **Continue**.
- 5 Draw a pattern again to confirm.
- 6 Select **Confirm**.

## Set an unlock PIN code

- 1 In Idle mode, open the application list and select **Settings** → **Location & security** → **Set up screen lock** → **PIN**.
- 2 Enter a new PIN (numeric) and select **Continue**.
- 3 Enter the PIN again and select **OK**.

## Set an unlock password

- 1 In Idle mode, open the application list and select **Settings** → **Location & security** → **Set up screen lock** → **Password**.

- 2 Enter a new password (alphanumeric) and select **Continue**.
- 3 Enter the password again and select **OK**.

## › Lock your SIM card

You can lock your device by activating the PIN supplied with your SIM card.

- 1 In Idle mode, open the application list and select **Settings** → **Location & security** → **Set up SIM card lock** → **Lock SIM card**.
- 2 Enter your PIN and select **OK**.

Once the PIN lock is enabled, you must enter the PIN each time you turn on the device.

- If you enter an incorrect PIN too many times, your SIM card will be blocked. You must enter a PIN unlock key (PUK) to unblock the SIM card.
- If you block your SIM card by entering an incorrect PUK, bring the card to your service provider to unblock it.

## Enter text

You can enter text using the virtual keypad on the screen or the external QWERTY keyboard.

- You cannot enter text in some languages. To enter text, you should change the writing language to one of the supported languages. ► p. 89.

## › Change the keyboard type

You can change the virtual keypad type. Tap and hold the text input field and select **Input method** → a keypad type (Swype or Samsung keypad).

## ➤ Enter text using the Swype keypad

- 1 Select the first character of a word and drag your finger to the second character without releasing the finger from the screen.
- 2 Pause on the second character for a moment and drag the finger to the next character.
- 3 Continue until you have finished the word.

- 4 Release the finger on the last character. The word is inserted into the text input field.
- 5 Repeat steps 1-4 to complete your text.  
Tap and hold each key to enter additional characters.  
You can also use the following keys:

| Number | Function  |
|--------|---|
| 1      | Change case.  |
| 2      | Switch between Symbol mode and ABC/Number mode.   |
| 3      | Clear your input.   |
| 4      | Start a new line (Emoticon key appears in this location in some applications, such as Messaging). |
| 5      | Insert a space.   |

- To hide the Swype keyboard, press [↵].
- To view help information for using the Swype keyboard, select

## › Enter text using the Samsung keypad

When you select the input field, the input panel with QWERTY keyboard appears. Select characters on the keypad.

| 7      | Insert a space.<br>Functions of this key may vary depending on your service provider.                              |

If you have text input keyboards downloaded from the web, you can change the keypad type. Tap and hold the text input field and select **Input method** → a keypad type.

## › Enter text using the QWERTY keyboard

When you slide open the device, you can use the QWERTY keyboard. Select the keys as necessary to enter your text.

Use the following features with the QWERTY keyboard:

- Press [>] to change case.
- Press [Alt] to enter characters on the upper half of the keys.
- Press [Sym] to bring up a character picker for miscellaneous symbols.
- Press an appropriate key to enter a character, number, and symbol.

## › Copy and paste text

While you are entering text, you can use the copy and paste feature to use text in other applications.

- 1 Place the cursor where you want to start.
- 2 Tap and hold the text input field.
- 3 Select **Select text** from the option list.
- 4 Tap on the place where you want to end.
- 5 Tap and hold the highlighted text.
- 6 Select **Copy** to copy, or **Cut** to cut the text onto the clipboard.
- 7 In another application, tap and hold the text input field.
- 8 Select **Paste** to insert the text from the clipboard into the text field.

## Download applications

Based on the Android platform, your device's functionality can be extended by installing additional applications. Android Market provides you an easy and quick way to shop for games and mobile applications.

- This feature may be unavailable depending on your region or service provider.
- Your device will save user files from downloaded applications to the internal memory.

### › Install an application

- 1 In Idle mode, open the application list and select **Market**.
- 2 Select **Accept** when the terms and conditions appears.
- 3 Select an item category → an item.

- 4 Select **Install** (for free items) or **Buy**.  
If you select **Install**, select **OK** to download the item immediately.  
If you select **Buy**, you need to enter your credit card information. Follow the on-screen instructions.

### › Uninstall an application

- 1 From the Android Market home screen, select **My apps**.
- 2 Select the item you want to delete.
- 3 Select **Uninstall** → **OK**.

## Download files from the web

When you download files or web applications from the web, your device saves them in a memory card.

 Files you download from the web can include viruses that will damage your device. To reduce your risk, only download files from sources you trust.

 Some media files include Digital Rights Management to protect copyrights. This protection may prevent you from downloading, copying, modifying, or transferring some files.

To download files from the web,

- 1 In Idle mode, open the application list and select **Browser**.
- 2 Search for a file or application and download it.

To install applications downloaded from websites other than Android Market, you must select **Settings** → **Applications** → **Unknown sources**.

## Synchronize data

You can synchronize data with various web servers and back up or restore your data.

Once the synchronization is completed, your device stays connected to the web. If any change is made on the web, the updated information will appear on your device and will automatically begin synchronization, and vice versa.

 This feature may be unavailable depending on your region or service provider.

### › Set up a server account

- 1 In Idle mode, open the application list and select **Settings** → **Accounts & sync**.
- 2 Select **Add account** → an account type.

# Communication

## Calling

Learn to use calling functions, such as making and answering calls, using options available during a call or customizing and using call-related features.

### › Make and answer a call

You can use the buttons or the touch screen when you make, accept, end, or reject calls.

When you hold the device near your face, your device automatically turns off and locks the touch screen to prevent accidental input.

### Make a call

- 1 In Idle mode, select **Phone** → **Keypad**, and enter an area code and a phone number.
  - 2 Select  to make the call.
  - 3 To end the call, select **End**.
- Use Contacts to save numbers you dial frequently.
    - ▶ p. 60
  - To quickly access the call log to redial numbers you dialed recently, select **Phone** → **Call log**.

### Answer a call

- 1 When a call comes in, drag  right until it reaches the dot.
- When the device is ringing, press the Volume key to mute the ringtone.
- 2 To end the call, select **End**.

## Reject a call

When a call comes in, drag  left until it reaches the dot. The caller will hear a busy tone.

## Call an international number

- 1 In Idle mode, select **Phone** → **Keypad**, and tap and hold **0** to insert the + character.
- 2 Enter the complete number you want to dial (country code, area code and phone number), and then select  to dial the number.

## Use the headset

By plugging the supplied headset into the device, you can answer and control calls hands-free:

- To answer a call, press the headset button.
- To mute or unmute a call, press the headset button.

 The supplied headset is designed only for your device and may not be compatible with other phones and MP3 players.

## Use options during a call

You can use the following options while a call is in progress:

- To adjust the voice volume, press the Volume key up or down.
- To place a call on hold, select **Hold**. To retrieve a held call, select **Unhold**.
- To dial a second call, select **Add call** and then dial a new number.
- To answer a second call, drag  right until it reaches the dot when a call waiting tone sounds. A pop-up box allows you to select whether to Hold or End the first call. You must subscribe to the call waiting service to use this feature.
- To open the dialing screen, select **Dialpad**.

# Connectivity

## Bluetooth

Bluetooth is a short-range wireless communications technology capable of exchanging information over a distance of about 10 m without requiring a physical connection.

You do not need to line up the devices to beam information with Bluetooth. If the devices are within range of one another, you can exchange information between them even if they are located in different rooms.

- Samsung is not responsible for the loss, interception, or misuse of data sent or received via the Bluetooth wireless feature.
- Always ensure that you share and receive data with devices that are trusted and properly secured. If there are obstacles between the devices, the operating distance may be reduced.
- Some devices, especially those that are not tested or approved by Bluetooth SIG, may be incompatible with your device.

### › Turn on the Bluetooth wireless feature

- 1 In Idle mode, open the application list and select **Settings** → **Wireless & networks** → **Bluetooth settings**.
- 2 Select **Bluetooth** to turn on the Bluetooth wireless feature.

## ➤ Find and pair with other Bluetooth-enabled devices

## Access the Settings menu

- 1 In Idle mode, open the application list and select **Settings**.
- 2 Select a setting category and select an option.

## Wireless & networks

Change the settings for wireless network connections.

### › Flight mode

Disable all wireless functions on your device. You can use only non-network services.

### › Wi-Fi settings

- **Wi-Fi:** Turn the WLAN feature on or off. ► page 72
- **Network notification:** Set the device to notify you when an open network is available.
- **Add Wi-Fi network:** Add WLAN APs manually.

### › Bluetooth settings

- **Bluetooth:** Turn the Bluetooth wireless feature on or off. ► page 70
- **Device name:** Set a Bluetooth name for your device.
- **Visible:** Set your device to be visible to other Bluetooth devices.
- **Scan devices:** Search for available Bluetooth devices.

### › Tethering & portable hotspot

- **USB tethering:** Activate the USB tethering feature to share your device's mobile network connection with PCs via USB. When connected to a PC, your device is used as a wireless modem for a PC. ► page 75

- **Portable Wi-Fi hotspot:** Activate the Portable WLAN hotspot feature to share your device's mobile network connection with PCs or other devices through the WLAN feature. ► page 75
- **Portable Wi-Fi hotspot settings:** Configure network settings for your WLAN hotspot.

## › VPN settings

Set up and connect to virtual private networks (VPNs).  
► page 77

## › Mobile networks

- **Data enabled:** Set the device to use data connection automatically when the WLAN network is unavailable.
- **Data roaming:** Set the device to connect another network when you are roaming or your home network is not available.
- **Access Point Names:** Set up access point names (APNs).
- **Network operators:** Search for available networks and select a network for roaming.

## Call settings

Customize the settings for calling features.

### › Voicemail service

Select your service provider's voicemail service. You can also select other voicemail services if you downloaded applications that support them.

### › Voicemail settings

Enter the number to access the voicemail service. You can obtain this number from your service provider.

### › DTMF tones

Set short or long DTMF (Dual-tone multifrequency) tones to be sent to access teleservices, such as bank accounts.

### › Call forwarding

Divert incoming calls to another number.

## › Additional settings

- **Caller ID:** Display your caller ID to other parties for outgoing calls.
- **Call waiting:** Allow incoming call alerts when a call is in progress.

## Sound

Change the settings for various sounds on your device.

- **Silent mode:** Activate the silent mode to mute all sounds except media sounds and alarm ringtones.
- **Vibrate:** Set when the device will vibrate for various events.
- **Volume:** Adjust the volume level for call ringtones, music and videos, alarm ringtones, system sound, and notification ringtones.
- **Phone ringtone:** Select a ringtone to alert you to incoming calls.

- **Notification ringtone:** Select a ringtone to alert you to events, such as incoming messages and missed calls.
- **Audible touch tones:** Set the device to sound when you touch the keys on the dialing screen.
- **Audible selection:** Set the device to sound when you select an application or option.
- **Screen lock sounds:** Set the device to sound when you lock or unlock the touch screen.

## Display

Change the settings for the display.

- **Brightness:** Set the brightness of the display.
- **Auto-rotate screen:** Set whether or not to rotate the content automatically when the device is rotated.
- **Animation:** Set the device to display animation when you switch between windows.
- **Screen timeout:** Set the length of time the device waits when inactive before turning off the display's backlight.

## Location & security

Change the settings for securing your device and the SIM card, and GPS functionality.

- **Use wireless networks:** Set to use WLAN and/or mobile networks for finding your location.
- **Use GPS satellites:** Set to use GPS satellites for finding your location.
- **Use assisted GPS:** Set to enhance the GPS functionality by downloading data files from the GPS web server. You may incur additional charges for downloading GPS data files.
- **Set up screen lock:** Set the unlock security code. When you have set your security code, this option changes to **Change screen lock**.
  - **None:** Disable the screen lock.
  - **Pattern:** Set an unlock pattern to unlock the screen.
  - **PIN:** Set a PIN (numeric) to unlock the screen.
  - **Password:** Set a password (alphanumeric) to unlock the screen.
- **Set up SIM card lock:**
  - **Lock SIM card:** Activate or deactivate the PIN lock feature to require the PIN before using the device.
  - **Change SIM PIN:** Change the PIN used to access SIM or USIM data.
- **Visible passwords:** Set the device to display your password as you enter.
- **Select device administrators:** View device administrators installed on your device. You can activate device administrators to apply new policies to your device.
- **Use secure credentials:** Use certificates and credentials to ensure secure use of various applications.
- **Install from SD card:** Install encrypted certificates that are stored on a memory card.

- **Set password:** Create and confirm a password for accessing credentials.
- **Clear storage:** Erase the credential contents from the device and reset the password.

## Applications

Change the settings for managing installed applications.

- **Unknown sources:** Select to download applications from any source. If you do not select this option, you can download applications only from Android Market.
- **Quick launch:** Assign a letter to an application to quickly locate the application by entering the letter in Google Search.
- **Manage applications:** Access the list of the applications installed on the device and check the application information.

- **Running services:** View the services you are using and access them to manage.
- **Development:**
  - **USB debugging:** Select to enable debug mode when the device is connected to a PC by a PC data cable. This is for application development.
  - **Stay awake:** Set the device's screen to stay on while charging the battery.
  - **Allow mock locations:** Allow mock locations and service information to be sent to a Location Manager service for testing. This is for application development.
- **Samsung Apps:** Select a network connection (Wi-Fi or packet switched data network) to get application update notification from Samsung Apps.

This feature may be unavailable depending on your region or service provider.

## Accounts & sync

Change the settings for the auto sync feature or manage accounts for synchronization.

- **Background data:** Select this setting to use the auto sync feature. The auto sync will run in the background without opening applications and synchronize data.
- **Auto-sync:** Set the device to synchronize contact, calendar, and email data automatically.

## Privacy

Change the settings for managing your settings and data.

- **Back up my data:** Back up your device's settings to the Google server.
- **Automatic restore:** Set the device to restore backed up data when applications are reinstalled on your device.
- **Factory data reset:** Reset all settings to the factory default values.

## SD card & phone storage

Check memory information of memory cards and your device, unmount and format a memory card.

## Search

Change the Google Search settings.

- **Google search:**
  - **Show web suggestions:** Set the device to display suggestions while you are entering a keyword.
  - **Use My Location:** Set the device to use your current location for Google search and other Google services.
  - **Search history:** Set the device to show the search history of your Google account.
  - **Manage search history:** Manage the search history of your Google account.
- **Searchable items:** choose search locations on the phone.
- **Clear shortcuts:** clear shortcuts to recently chosen search suggestions.

## Language & keyboard

Change the settings for text input.

### › Select language

Select a display language for all menus and applications.

### › Swype

- Select to enable/disable Swype text input.

### › Swype (Swype settings)

- **Language:** Select a language for text input.

You cannot enter text in some languages. To enter text, you should change the writing language to one of the supported languages.

- **Word prediction:** Set the device to predict words according to your input and display word suggestions.
- **Audio feedback:** Turn audio for the Swype keyboard on or off.

- **Vibrate on keypress:** Set the device to vibrate when you touch a key.
- **Enable tip indicator:** Activate the indicator for quick help.
- **Auto-spacing:** Set the device to automatically insert a space between words.
- **Auto-capitalization:** Set the device to automatically capitalize the first letter after a final punctuation mark, such as a period, question mark, or exclamation mark.
- **Show complete trace:** Set how long the trace of your dragging will display on the keyboard.
- **Word choice window:** Set how often the word list will display.
- **Speed vs. accuracy:** Set the balance for the speed and accuracy.
- **Swype help:** Access help information for using the Swype keyboard.
- **Tutorial:** Learn how to enter text faster with the Swype keyboard.

- **Version:** View version information.

## › Samsung keypad

- **Input languages:** Select languages for text input.

You cannot enter text in some languages. To enter text, you should change the writing language to one of the supported languages.

- **Keypad sweeping:** Enable or disable the keypad sweeping feature for the text input mode. You can switch between input modes by scrolling left or right on the keypad.
- **Auto-capitalization:** Set the device to automatically capitalize the first letter after a final punctuation mark, such as a period, question mark, or exclamation mark.
- **Voice input:** Activate the voice input feature to enter text by voice on the Samsung keypad.
- **Auto-full stop:** Set the device to insert a period when you double-tap the space bar.

- **Tutorial:** Learn how to enter text with the Samsung keypad.

## › Device keyboard

- **Auto-replace:** Set the device to automatically correct the misspelled words.
- **Auto-cap:** Set the device to automatically capitalize the first letter after a final punctuation mark, such as a period, question mark, or exclamation mark.
- **Auto-punctuate:** Set the device to insert a period when you double-tap the space bar.

## Voice input & output

Change the settings for the voice recognizer and the text-to-speech feature.

### › Voice recognizer settings

- **Language:** Select a language for the Google voice recognition.

- **SafeSearch:** Set the device to filter explicit text and/or images from voice search results.
- **Block offensive words:** Hide offensive words your device recognized from voice search results.
- **Show hints:** Set to show a suggested term or phrase for the voice search feature.

## › Text-to-speech settings

- **Listen to an example:** Listen to the spoken text for an example. Install voice data for using the text-to-speech feature.
- **Driving mode:** Activate Driving mode to set the device to read verbally notifications for incoming calls or messages, or event details.
- **Always use my settings:** Set the device to use the settings you specify in applications rather than the default settings.
- **Default Engine:** Set the speech synthesis engine to be used for spoken text.
- **Install voice data:** Download and install voice data for

the text-to-speech feature.

- **Speech rate:** Select a speed for the text-to-speech feature.
- **Language:** Select a language for the text-to-speech feature.
- **Engines:** View the text-to-speech engines installed.

## Accessibility

Change the settings for accessibility features.

- **Accessibility:** Activate an accessibility application you have downloaded, such as Talkback or Kickback, which provide voice, melody, or vibration feedback.
- **Power button ends call:** Set the device to end a call when you press [⓪].

## Date & time

Access and alter the following settings to control how time and date are displayed on your device:

- **Automatic:** Automatically update the time using network provided values. Must be off to allow manual changes to the date and time.
- **Set date:** Set the current date manually.
- **Select time zone:** Set your time zone manually.
- **Set time:** Set the current time manually.
- **Use 24-hour format:** Display the time in 24-hour format.
- **Select date format:** Select a date format.

# Troubleshooting

When you turn on your device or while you are using the device, it prompts you to enter one of the following codes:

| Code     | Try this to solve the problem:   |
|----------|--|
| Password | When the device lock feature is enabled, you must enter the password you set for the device.   |
| PIN      | When using the device for the first time or when the PIN requirement is enabled, you must enter the PIN supplied with the SIM card. You can disable this feature by using the <b>Lock SIM card</b> menu. |

| Code | Try this to solve the problem:  |
|------|---|
| PUK  | Your SIM card is blocked, usually as a result of entering your PIN incorrectly several times. You must enter the PUK supplied by your service provider. |
| PIN2 | When you access a menu requiring the PIN2, you must enter the PIN2 supplied with the SIM card. For details, contact your service provider.              |

## Your device displays "Service unavailable" or "Network error"

- When you are in areas with weak signals or poor reception, you may lose reception. Move to another area and try again.
- You cannot access some options without a subscription. Contact your service provider for more details.

## The touch screen responds slowly or improperly

If your device has a touch screen and the touch screen is not responding properly, try the following:

- Remove any protective covers from the touch screen. Protective covers may prevent the device from recognising your inputs and are not recommended for touch screen devices.
- Ensure that your hands are clean and dry when tapping the touch screen.
- Restart your device to clear any temporary software bugs.
- Ensure that your device software is upgraded to the latest version.
- If the touch screen is scratched or damaged, take it to your local Samsung Service Centre.

## Your device freezes or has fatal errors

If your device freezes or hangs, you may need to close programs or reset the device to regain functionality. If your device is frozen and unresponsive, press and hold [⏻] for 8-10 seconds. The device will reboot automatically.

If this does not solve the problem, perform a factory data reset. In Idle mode, open the application list and select **Settings** → **Privacy** → **Factory data reset** → **Reset phone** → **Erase everything**.

## Calls are being dropped

When you are in areas with weak signals or poor reception, you may lose your connection to the network. Move to another area and try again.

## Outgoing calls are not connected

- Ensure that you have pressed the Dial key.
- Ensure that you have accessed the right cellular network.
- Ensure that you have not set call barring for the phone number you are dialling.

## Incoming calls are not connected

- Ensure that your device is turned on.
- Ensure that you have accessed the right cellular network.
- Ensure that you have not set call barring for the incoming phone number.

## Others cannot hear you speaking on a call

- Ensure that you are not covering the built-in microphone.
- Ensure that the microphone is close to your mouth.
- If using a headset, ensure that it is properly connected.

## Audio quality is poor

- Ensure that you are not blocking the device's internal antenna.
- When you are in areas with weak signals or poor reception, you may lose reception. Move to another area and try again.

## When dialing from contacts, the call is not connected

- Ensure that the correct number is stored in the contact list.
- Re-enter and save the number, if necessary.
- Ensure that you have not set call barring for the contact's phone number.

## The device beeps and the battery icon flashes

Your battery is low. Recharge or replace the battery to continue using the device.

## The battery does not charge properly or the device turns off

- The battery terminals may be dirty. Wipe both gold-coloured contacts with a clean, soft cloth and try charging the battery again.
- If the battery will no longer charge completely, dispose of the old battery properly and replace it with a new battery (refer to your local ordinances for proper disposal instructions).

## Your device is hot to the touch

When you use applications that require more power or use applications on your device for an extended period of time, your device may feel hot to the touch. This is normal and should not affect your device's lifespan or performance.

## Error messages appear when launching the camera

Your Samsung mobile device must have sufficient available memory and battery power to operate the camera application. If you receive error messages when launching the camera, try the following:

- Charge the battery or replace it with a battery that is fully charged.
- Free some memory by transferring files to a PC or deleting files from your device.
- Restart the device. If you are still having trouble with the camera application after trying these tips, contact a Samsung Service Centre.

## Error messages appear when launching the FM radio

The FM radio application on your Samsung mobile device uses the headset cable as an antenna. Without a headset connected, the FM radio will be unable to receive radio stations. To use the FM radio, first ensure that the headset is properly connected. Next, scan for and save the available radio stations.

If you still cannot use the FM radio after performing these steps, try accessing your desired station with another radio receiver. If you can hear the station with another receiver, your device may require service. Contact a Samsung Service Centre.

## Error messages appear when opening music files

Some music files may not play on your Samsung mobile device for a variety of reasons. If you receive error messages when opening music files on your device, try the following:

- Free some memory by transferring files to a PC or deleting files from your device.
- Ensure that the music file is not Digital Rights Management (DRM)-protected. If the file is DRM-protected, ensure that you have the appropriate license or key to play the file.
- Ensure that your device supports the file type.

## Another Bluetooth device is not located

- Ensure that the Bluetooth wireless feature is activated on your device.
- Ensure that the Bluetooth wireless feature is activated on the device you wish to connect to, if necessary.
- Ensure that your device and the other Bluetooth device are within the maximum Bluetooth range (10 metres).

If the tips above do not solve the problem, contact a Samsung Service Centre.

## A connection is not established when you connect the device to a PC

- Ensure that the PC data cable you are using is compatible with your device.
- Ensure that you have the proper drivers installed and updated on your PC.

# Safety and usage information

This safety and usage information should be followed to safely use your device.

## Safety warnings

### Keep your device away from small children and pets

Keep your device and all accessories out of the reach of small children or animals. Small parts may cause choking or serious injury if swallowed.

### Protect your hearing

Excessive exposure to sound at high volumes can cause hearing damage. Always turn the volume down before plugging the earphones into an audio source and use only the minimum volume setting necessary to hear your conversation or music.

### Install mobile devices and equipment with caution

Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted. Avoid placing your device and accessories near or in an air bag deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly.

### Handle and dispose of batteries and chargers with care

- Use only Samsung-approved batteries and chargers specifically designed for your device. Incompatible batteries and chargers can cause serious injuries or damage to your device.

- Never dispose of batteries or devices in a fire. Follow all local regulations when disposing of used batteries or devices.
- Never place batteries or devices on or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode when overheated.
- Never crush or puncture the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short circuit and overheating.

### **Avoid interference with pacemakers**

Maintain a minimum of 15 cm (6 inches) between mobile devices and pacemakers to avoid potential interference, as recommended by manufacturers and the independent research group, Wireless Technology Research.

If you have any reason to suspect that your device is interfering with a pacemaker or other medical device, turn off the device immediately and contact the manufacturer of the pacemaker or medical device for guidance.

### **Turn off the device in potentially explosive environments**

Do not use your device at refuelling points (service stations) or near fuels or chemicals. Turn off your device whenever directed by warning signs or instructions. Your device could cause explosions or fire in and around fuel or chemical storage and transfer areas or blasting areas. Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories.

### **Reduce the risk of repetitive motion injuries**

While using your device, hold the device with a relaxed grip, press the keys lightly, use special features that reduce the number of keys you have to press (such as templates and predictive text), and take frequent breaks.

### **Do not use the device during a thunderstorm**

Your device may malfunction and your risk of electric shock is increased.

## Do not use the device if the screen is cracked or broken

Broken glass or acrylic could cause injury to your hand and face. Bring the device to a Samsung Service Centre to replace the screen. Damage caused by careless handling will void your manufacturer's warranty.

## UL Certified Travel Adapter

The Travel Adapter for this phone has met applicable UL safety requirements. Please adhere to the following safety instructions per UL guidelines.

FAILURE TO FOLLOW THE INSTRUCTIONS OUTLINED MAY LEAD TO SERIOUS PERSONAL INJURY AND POSSIBLE PROPERTY DAMAGE. IMPORTANT SAFETY INSTRUCTIONS - SAVE THESE INSTRUCTIONS. DANGER - TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, CAREFULLY FOLLOW THESE INSTRUCTIONS. FOR CONNECTION TO A SUPPLY NOT IN NORTH AMERICA, USE AN ATTACHMENT PLUG ADAPTOR OF THE PROPER CONFIGURATION FOR THE POWER OUTLET. THIS POWER UNIT IS INTENDED TO BE CORRECTLY ORIENTATED IN A VERTICAL OR HORIZONTAL OR FLOOR MOUNT POSITION.

## Safety precautions

### Drive safely at all times

Avoid using your device while driving and obey all regulations that restrict the use of mobile devices while driving. Use hands-free accessories to increase your safety when possible.

### Follow all safety warnings and regulations

Comply with any regulations that restrict the use of a mobile device in a certain area.

### Use only Samsung-approved accessories

Using incompatible accessories may damage your device or cause injury.

### Turn off the device near medical equipment

Your device can interfere with medical equipment in hospitals or health care facilities. Follow all regulations, posted warnings, and directions from medical personnel.

## Turn off the device or disable the wireless functions when in an aircraft

Your device can cause interference with aircraft equipment. Follow all airline regulations and turn off your device or switch to a mode that disables the wireless functions when directed by airline personnel.

## Protect the device, batteries and chargers from damage

- Avoid exposing your device and batteries to very cold or very hot temperatures (below 0° C or above 45° C).
- Extreme temperatures can cause the deformation of the device and reduce the charging capacity and life of your device and batteries.
- Prevent batteries from contacting metal objects, as this can create a connection between the + and - terminals of your batteries and lead to temporary or permanent battery damage.
- Never use a damaged charger or battery.

## Handle your device carefully and sensibly

- Do not disassemble your device due to a risk of electric shock.
- Do not allow your device to get wet—liquids can cause serious damage and will change the colour of the label that indicates water damage inside the device. Do not handle your device with wet hands. Water damage to your device can void your manufacturer's warranty.
- Avoid using or storing your device in dusty, dirty areas to prevent damage to moving parts.
- Your device is a complex electronic device—protect it from impacts and rough handling to avoid serious damage.
- Do not paint your device, as paint can clog moving parts and prevent proper operation.
- If your device has a camera flash or light, avoid using it close to the eyes of children or animals.
- Your device may be damaged by exposure to magnetic fields. Do not use carrying cases or accessories with magnetic closures or allow your device to come in contact with magnetic fields for extended periods of time.

## Avoid interference with other electronic devices

Your device emits radio frequency (RF) signals that may interfere with unshielded or improperly shielded electronic equipment, such as pacemakers, hearing aids, medical devices, and other electronic devices in homes or vehicles. Consult the manufacturers of your electronic devices to solve any interference problems you experience.

## Important usage information

### Signal strength

The quality of each call you make or receive depends on the signal strength in your area. Your phone informs you of the current signal strength by displaying a number of bars next to the signal strength icon. The more bars displayed, the stronger the signal. If you're inside a building, being near a window may give you better reception.

## Understand how your phone operates

Your phone is basically a radio transmitter and receiver. When it's turned on, it receives and transmits radio frequency (RF) signals. When you use your phone, the system handling your call controls the power level. This power can range from 0.006 watts to 0.2 watts.

## Allow only qualified personnel to service your device

Allowing unqualified personnel to service your device may result in damage to your device and will void your manufacturer's warranty.

## Ensure maximum battery and charger life

- Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- Over time, unused batteries will discharge and must be recharged before use.
- Disconnect chargers from power sources when not in use.
- Use batteries only for their intended purpose.

## Handle SIM cards or memory cards with care

- Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/or damage to the card or device.
- Protect cards from strong shocks, static electricity, and electrical noise from other devices.
- Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.

## Ensure access to emergency services

Emergency calls from your device may not be possible in some areas or circumstances. Before travelling in remote or undeveloped areas, plan an alternate method of contacting emergency services personnel.

## Correct disposal of this product

The product and its electronic accessories (e.g., charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from

uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

## Correct disposal of batteries in this product

The batteries in this product should not be disposed of with other household waste at the end of their working life.

Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above reference levels. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

To protect natural resources and to promote material reuse, please separate batteries from other types of waste and recycle them through your local, free battery return system.

This phone is compliant with RoHS.

## Radio frequency safety

The design of your phone complies with updated NCRP standards described below. In 1991-92, the Institute of Electrical and Electronics Engineers (IEEE) and the American National Standards Institute (ANSI) joined in updating ANSI's 1982 standard for safety levels with respect to human exposure to RF signals. More than 120 scientists, engineers and physicians from universities, government health agencies and industries developed this updated standard after reviewing the available body of research. In 1993, the Federal Communications Commission (FCC) adopted this updated standard in a regulation. In August 1996, the FCC adopted hybrid standard consisting of the existing ANSI/IEEE standard and the guidelines published by the National Council of Radiation Protection and Measurements (NCRP).

### Acknowledging special precautions and Industry Canada notice

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part

15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient / relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult your dealer or an experienced radio/TV technician for help.

### Specific Absorption Rate (SAR)

The SAR is a value that corresponds to the relative amount of RF energy absorbed in the head of a user of a wireless handset.

The SAR value of a phone is the result of an extensive testing, measuring and calculation process. It does not represent how much RF the phone emits. All phone models are tested at their highest value in strict laboratory settings. But when in operation, the SAR of a phone can be substantially less than the level reported to the FCC. This is because of a variety of factors including its proximity to a base station antenna, phone design and other factors. What is important to remember is that each phone meets strict federal guidelines. Variations in SARs do not represent a variation in safety.

All phones must meet the federal standard, which incorporates a substantial margin of safety. SAR values at or below the federal standard of 1.6 W/kg are considered safe for use by the public.

Maximum measured SAR values for the GT-I5510M are:

**GSM 850**

Head: 0.45 W/kg

Body-worn: 0.72 W/kg

**GSM 1900**

Head: 0.20 W/kg

Body-worn: 0.31 W/kg

**WCDMA 850**

Head: 0.27 W/kg

Body-worn: 0.23 W/kg

**WCDMA 1900**

Head: 0.32 W/kg

Body-worn: 0.26 W/kg

## Owners Record

The model number, regulatory number and serial number are located on a nameplate inside the battery compartment.

Record the serial number in the space provided below. This will be helpful if you need to contact us about your phone in the future.

# Warranty

## › Standard Limited Warranty

### **What is Covered and For How Long?** SAMSUNG

Electronics Canada Inc. (SAMSUNG) warrants to the original purchaser ("Purchaser") that SAMSUNG's Phones and accessories ("Products") are free from defects in material and workmanship under normal use and service for the period commencing upon the date of purchase and continuing for the following specified period of time after that date:

|                         |         |
|-------------------------|---------|
| Phone                   | 1 Year  |
| Batteries               | 1 Year  |
| Leather Case            | 90 Days |
| Holster                 | 90 Days |
| Other Phone Accessories | 1 Year  |

**What is Not Covered?** This Limited Warranty is conditioned upon proper use of Product by Purchaser.

This Limited Warranty does not cover: (a) defects or damage resulting from accident, misuse, abuse, neglect, unusual physical, electrical or electromechanical stress, or modification of any part of Product, including antenna, or cosmetic damage; (b) equipment that has the serial number removed or made illegible; (c) any plastic surfaces or other externally exposed parts that are scratched or damaged due to normal use; (d) malfunctions resulting from the use of Product in conjunction with accessories, products, or ancillary/peripheral equipment not furnished or approved by SAMSUNG; (e) defects or damage from improper testing, operation, maintenance, installation, or adjustment; (f) installation, maintenance, and service of Product, or (g) Product used or purchased outside the United States or Canada.

This Limited Warranty covers batteries only if battery capacity falls below 80% of rated capacity or the battery leaks, and this Limited Warranty does not cover any battery if (i) the battery has been charged by a battery charger not specified or approved by SAMSUNG for charging the battery, (ii) any of the seals on the battery are broken or

show evidence of tampering, or (iii) the battery has been used in equipment other than the SAMSUNG phone for which it is specified.

**What are SAMSUNG's Obligations?** During the applicable warranty period, SAMSUNG will repair or replace, at SAMSUNG's sole option, without charge to Purchaser, any defective component part of Product. To obtain service under this Limited Warranty, Purchaser must return Product to an authorized phone service facility in an adequate container for shipping, accompanied by Purchaser's sales receipt or comparable substitute proof of sale showing the date of purchase, the serial number of Product and the sellers' name and address. To obtain assistance on where to deliver the Product, call Samsung Customer Care at 1-800-SAMSUNG. Upon receipt, SAMSUNG will promptly repair or replace the defective Product. SAMSUNG may, at SAMSUNG's sole option, use rebuilt, reconditioned, or new parts or components when repairing any Product or replace Product with a rebuilt, reconditioned or new Product. Repaired/replaced leather cases, pouches and holsters will be warranted for a period

of ninety (90) days. All other repaired/replaced Product will be warranted for a period equal to the remainder of the original Limited Warranty on the original Product or for 90 days, whichever is longer. All replaced parts, components, boards and equipment shall become the property of SAMSUNG. If SAMSUNG determines that any Product is not covered by this Limited Warranty, Purchaser must pay all parts, shipping, and labor charges for the repair or return of such Product.

**What Are the Limits On SAMSUNG's Liability?** EXCEPT AS SET FORTH IN THE EXPRESS WARRANTY CONTAINED HEREIN, PURCHASER TAKES THE PRODUCT "AS IS," AND SAMSUNG MAKES NO WARRANTY OR REPRESENTATION AND THERE ARE NO CONDITIONS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT, INCLUDING BUT NOT LIMITED TO:

THE MERCHANTABILITY OF THE PRODUCT OR ITS FITNESS FOR ANY PARTICULAR PURPOSE OR USE; WARRANTIES OF TITLE OR NON-INFRINGEMENT; DESIGN, CONDITION, QUALITY, OR PERFORMANCE OF THE PRODUCT; THE

WORKMANSHIP OF THE PRODUCT OR THE COMPONENTS CONTAINED THEREIN; OR COMPLIANCE OF THE PRODUCT WITH THE REQUIREMENTS OF ANY LAW, RULE, SPECIFICATION OR CONTRACT PERTAINING THERETO.

NOTHING CONTAINED IN THE INSTRUCTION MANUAL SHALL BE CONSTRUED TO CREATE AN EXPRESS WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT. ALL IMPLIED WARRANTIES AND CONDITIONS THAT MAY ARISE BY OPERATION OF LAW, INCLUDING IF APPLICABLE THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED TO THE SAME DURATION OF TIME AS THE EXPRESS WRITTEN WARRANTY STATED HEREIN. SOME STATES/PROVINCES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. IN ADDITION, SAMSUNG SHALL NOT BE LIABLE FOR ANY DAMAGES OF ANY KIND RESULTING FROM THE PURCHASE, USE, OR MISUSE OF, OR INABILITY TO USE THE PRODUCT OR ARISING DIRECTLY OR INDIRECTLY FROM THE USE OR LOSS OF USE OF THE PRODUCT

OR FROM THE BREACH OF THE EXPRESS WARRANTY, INCLUDING INCIDENTAL, SPECIAL, CONSEQUENTIAL OR SIMILAR DAMAGES, OR LOSS OF ANTICIPATED PROFITS OR BENEFITS, OR FOR DAMAGES ARISING FROM ANY TORT (INCLUDING NEGLIGENCE OR GROSS NEGLIGENCE) OR FAULT COMMITTED BY SAMSUNG, ITS AGENTS OR EMPLOYEES, OR FOR ANY BREACH OF CONTRACT OR FOR ANY CLAIM BROUGHT AGAINST PURCHASER BY ANY OTHER PARTY. SOME STATES/PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE/PROVINCE TO PROVINCE. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THIS PRODUCT AND STATES PURCHASER'S EXCLUSIVE REMEDY. IF ANY PORTION OF THIS LIMITED WARRANTY IS HELD ILLEGAL OR UNENFORCEABLE BY REASON OF ANY LAW, SUCH PARTIAL ILLEGALITY OR UNENFORCEABILITY SHALL NOT AFFECT

THE ENFORCEABILITY FOR THE REMAINDER OF THIS LIMITED WARRANTY WHICH PURCHASER ACKNOWLEDGES IS AND WILL ALWAYS BE CONSTRUED TO BE LIMITED BY ITS TERMS OR AS LIMITED AS THE LAW PERMITS.

THE PARTIES UNDERSTAND THAT THE PURCHASER MAY USE THIRD-PARTY SOFTWARE OR EQUIPMENT IN CONJUNCTION WITH THE PRODUCT. SAMSUNG MAKES NO WARRANTIES OR REPRESENTATIONS AND THERE ARE NO CONDITIONS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, AS TO THE QUALITY, CAPABILITIES, OPERATIONS, PERFORMANCE OR SUITABILITY OF ANY THIRD-PARTY SOFTWARE OR EQUIPMENT, WHETHER SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT IS INCLUDED WITH THE PRODUCT DISTRIBUTED BY SAMSUNG OR OTHERWISE, INCLUDING THE ABILITY TO INTEGRATE ANY SUCH SOFTWARE OR EQUIPMENT WITH THE PRODUCT. THE QUALITY, CAPABILITIES, OPERATIONS, PERFORMANCE AND SUITABILITY OF ANY SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT LIE SOLELY WITH THE PURCHASER AND THE DIRECT VENDOR, OWNER OR SUPPLIER OF SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT, AS THE CASE MAY BE.

This Limited Warranty allocates risk of Product failure between Purchaser and SAMSUNG, and SAMSUNG's Product pricing reflects this allocation of risk and the limitations of liability contained in this Limited Warranty. The agents, employees, distributors, and dealers of SAMSUNG are not authorized to make modifications to this Limited Warranty, or make additional warranties binding on SAMSUNG. Accordingly, additional statements such as dealer advertising or presentation, whether oral or written, do not constitute warranties by SAMSUNG and should not be relied upon.
